housecallprogram@harrishealth.org

- Is homebound or has great difficulty getting to your doctor's office?
- Needs help managing chronic disease?
- Needs better control of your palliative symptoms?

Harris Health System House Call Services are a good option for getting specialized care when visiting a clinic is a challenge for you.

What Is Geriatric Care?

Geriatric care refers to the treatment of older adults who often have multiple complex medical, functional, psychological and social problems.

What Is Palliative Care?

Palliative care is the management of symptoms to improve quality of life during serious illness.

What Is Family Medicine?

Family medicine provides comprehensive healthcare management to adults with complex medical problems.

How Are We Different?

We provide in-home care.

We are available by phone 24/7.
